

NDFC Benefits for all Members

- **\$2,000.00 coverage- at no cost**
- **Vision Discount- at no cost**
- **Child Safe Kit- at no cost**

The NDFC is pleased to remind you that all of our members get \$2,000 of AD&D coverage just for being a member. This coverage is provided by AIL Canada, a benefits company that specializes in providing additional, or top up benefits for many associations across Canada.

We have recently met with AIL to discuss the benefits and they have added something new to their No Cost program. In addition to the \$2,000 of coverage, all of our members will receive "The Child Safe Kit".

The Child Safe is an ID Kit that allows parents to record vital information unique to their child, such as fingerprints, birthmarks, up-to-date photo etc. and keep this solely in their possession. It is only released to the authorities if need be.

Remember that you also have access to the AIL Vision Care Discount, which provides you and your family with 25% discount at Sears Optical. What's really neat about this, is that there is no limit on how many times you can use it and since it is a point of purchase discount, it can be used in conjunction with any other coverage you may have.

Just so you know, this coverage has recently been renewed and you will soon be receiving your letter and response card in the mail. We urge you to return the yellow card to designate your beneficiary and also to take advantage of the Vision Discount card and Child Safe Kit.

If you have any questions, please email AIL at questions@altig.com or call Nadine Boudreault at 1-306-651-6950.
